Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 3, 4, 6-9, 11, 12, 14-16, and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by Capozzi et al (US 5,116,315).

Capozzi discloses a syringe system having a housing 14, a discharge nozzle 58 housing a plurality of conduits having exit openings, and a deflector assembly 20 having a deflector plate 77 positioned at a distal-most end of the housing.

3. Claims 1, 5-9, and 13-16 are rejected under 35 U.S.C. 102(e) as being anticipated by Redl (US 6,620,125).

Redl discloses a fluid delivery system having a housing 1, a discharge nozzle 9 housing a plurality of conduits having exit openings, and a deflector assembly having a deflector plate 14 positioned at a distal-most end of the housing.

Allowable Subject Matter

4. Claims 2 and 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments filed November 22, 2004 have been fully considered but they are not persuasive.

The claims do not distinguish applicant's invention from the references. The words "juxtaposed alignment" means side by side, and it can also be interpreted as adjacent. Side by side does not give any sense of direction or position (parallel perpendicular, etc) in the claim. The examiner suggests the use of parallel to describe the exit openings and the deflection plate. It is suggested a description that set forth that the exit openings are parallel to the plate and that both are in an angle. Furthermore, the words "short distance" is a relative term that does not give a precise position between elements from one point to another. The references meet this limitation.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cris L. Rodriguez whose telephone number is 571-272-4964. The examiner can normally be reached on 7:30 am - 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nick Lucchesi can be reached on 571-272-4977. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
